Chairman Kim Jong Il, Outstanding Leader Who Added Brilliance to Juche Era by Giving Importance to Ideology

Chairman Kim Jong Il is the outstanding leader who added brilliance to the era by dint of the truth of great ideology and brought about huge changes in the DPRK.

Supreme Leader Kim Jong Un said.

"Thanks to the wise leadership of the President and the General, who gave priority to ideological work and resolved all problems by enlisting the mental strength of the masses of the people in the whole course of their leadership of the Korean revolution, the revolution inscribed only victory on its flag, even though it was blazing a new trail in history."

Chairman Kim Jong Il is the most distinguished politician who modeled the whole society on the revolutionary ideology of the leader and thus added brilliance to the Juche era by dint of the single-minded unity of the Party and the revolutionary ranks.

Single-minded unity is the revolutionary philosophy of Chairman Kim Jong Il who added brilliance to the era of Juche.

Clarifying in the early period the idea that the single-minded unity is based on one center, one ideology, the Chairman consolidated and developed the unity and cohesion of the Party and the revolutionary ranks into the invincible one firmly rallied with the President as the only center, on the basis of the President's revolutionary ideology, thus developing the era of Juche into the era of great unity.

Through his energetic ideological and theoretical activities, the Chairman formulated the guiding ideology of the Workers' Party of

Korea as Kimilsungism and declared it as the highest program of the Party to model the whole society on Kimilsungism. This was a great political event that illuminated the path of hastening the final victory in the Korean revolution and roused the whole Party and all the people to its end.

On the historic course of modeling the whole society on Kimilsungism under the Chairman's wise leadership, the powerful political general staff that realized the monolithic ideology and leadership, the invincible revolutionary armed forces which holds high the red flag of the Workers' Party as its leading banner and the single-minded united ranks could be built.

Single-minded unity provided by Chairman Kim Jong Il is a weapon for sure victory and an invincible fortress. Under the leadership of the great Party, the DPRK people have lived with the idea of single-minded unity, advanced in the spirit of single-minded unity and confronted with the world reactionaries by dint of single-minded unity and thus enriched the era of Juche while wining victory after victory.

Chairman Kim Jong Il is the genius of creation and construction who added brilliance to the era of Juche with the remarkable successes achieved in the building of a powerful socialist country by enlisting the inexhaustible mental strength of the popular masses.

Tremendous changes made in the DPRK in the era of Juche are not made by favourable conditions or by the help from others. The DPRK people had to make the revolution and construction with their own under more difficult and arduous conditions than others due to every vicious move of disturbance, isolation and stifling by hostile forces.

Under the wise leadership of the Chairman, the DPRK people armed themselves with the revolutionary ideas of the great leaders

Kim Il Sung and Kim Jong Il that one must make revolution on its own and overcome all difficulties and trials laid before the advance with the struggling mode of self-reliance and fortitude and in the indomitable revolutionary spirit, thus adding brilliance to the era of Juche as the great heyday of national prosperity through huge creation and changes.

The great leaders' spirit of self-reliance and self-development that one is the master of one's own destiny and one should hew out his destiny by one's own trained the DPRK people into those who are strong in mental strength and unaware of impossibility and turned the Republic into an invincible powerful country no one dares to ignore.

Tremendous changes could be made in the era of Workers' Party thanks to the wise leadership of Chairman Kim Jong Il who brought about huge changes in the revolution and construction by giving fullest play to the popular masses' inexhaustible mental strength.

Workers' Party of Korea Holds aloft Banner of Independence

Independence is the revolutionary principle, the mode of revolution, the invariable strategic line and the banner of victory of the Workers' Party of Korea.

Under the leadership of President Kim Il Sung and Chairman Kim Jong Il, the WPK made a new history of prosperity unprecedented in the 5 000-year national history under the banner of the Juche idea, the most thoroughgoing idea of independence. The WPK is now fully displaying its dignity as the invincible party that defends independence and justice and leads the cause of socialism, the human cause of independence under the distinguished leadership of Supreme Leader Kim Jong Un.

The WPK is the great Party that paves the way for victory and prosperity by putting forward the independent lines and policies in keeping with actual circumstances of the country.

It is the independent line of the WPK to make the people become masters to solve all problems arising in the revolution and construction according to their will and decision and in keeping with the realities of the country and their interests.

When the WPK put forward the line of independence in politics, self-sufficiency in economy and self-reliance in defence under the banner of independence, some people expressed doubt by saying how a small and divided country could be independent.

However, the WPK consistently adhered to the steadfast standpoint that the DPRK people must be responsible for the Korean revolution and the principle that they must solve all problems in the

cause of socialism independently in line with their demand and aspiration and actual conditions of the country, thus blazing a new trail towards genuine socialism, the ideal of the people.

The WPK is the powerful General Staff of the revolution that solves all problems in the revolution and construction on the principle of self-reliance and self-development.

Self-reliance and self-development is the revolutionary principle which the WPK consistently adheres to in the whole historic period of the revolutionary struggle.

Whenever it had huge revolutionary tasks and faced manifold difficulties and trials, the WPK did not depend on others but hold higher the banner of self-reliance to create miracle out of nothing by giving fullest play to the people's mental strength.

Uncommon is the leadership of the WPK that has dynamically hastened the socialist construction while resolutely destroying the desperate and tenacious moves of hostile forces by dint of self-reliance and self-development.

Covering the road of independence under the Party's leadership, the DPRK people acquainted themselves with self-reliant mode of creation and life. They are now leading fair life while solving everything needed in their existence and development by their own.

The WPK is the dignified Party that firmly maintains the independent stand in foreign relations and vigorously hastens the building of an independent new world.

Independence is justice of history and serves as the basis for development of fair international relations.

The independent world is the one which is free from domination and subordination, aggression and intervention and the one where

sovereignty and equality of all countries and nations are secured.

In the present world where the imperialists' moves to dominate other countries and nations and hold sway over the world become ever more desperate, adhering to independence presents as the vital issue deciding the destiny of each country and nation.

Tragic realities, in which several countries who danced to the tune of others while depending on big powers and reduced to victims of aggression due to the imperialists' pressure and appeasement, clearly show that destiny and future of a country and nation hinge on whether it adheres to the independent stand or not.

Today, Juche Korea stands at the center of the world political structure as a dignified powerful country of independence thanks to the outstanding and seasoned leadership of Supreme Leader Kim Jong Un.

As recognized by the world people, the surprising realities that the dramatic changes are being made in the international political structure and the dignity of the Republic is underlined are the inevitability of history born by the independent politics of the WPK.

It is today's proud reality that the position of the Republic, which propels vigorously the building of an independent new world and exercises its full rights and influence befitting the motive force of the development of the regional and the world situation, has been consolidated considerably and the advancing speed of the revolution is being furthered in accordance with the WPK's will and decision.

The WPK will advance vigorously along the road of Juche under the immortal banner of independence under the leadership of Supreme Leader Kim Jong Un in the future, too.

Nordic Internet Seminar on “Scientific Accuracy and Truthfulness of Juche-oriented Theory of Socialism” Held

Nordic Internet Seminar “Scientific Accuracy and Truthfulness of Juche-oriented Theory of Socialism” was held in Sweden from Oct. 28 to Nov. 4, 2019 on the occasion of the 25th anniversary of the publication of Chairman Kim Jong Il’s immortal classic work “Socialism Is A Science”.

The seminar website carried the full text of the work “Socialism Is A Science”, pictures showing the superiority of the DPRK’s socialist system and introduction of the seminar, with a portrait of smiling Chairman Kim Jong Il.

It also posted such written speeches as “Korean-style socialism consistent with Juche-oriented viewpoint is the most superior and scientific socialism”, “Socialism will surely win victory for its scientific accuracy and truthfulness” and “Defending the scientific socialism” made by several personages including Anders Kristensen, chairman of the Denmark-DPRK Friendship Association, Christer Lundgren, chairman of the Sweden-DPRK Friendship Association, and Jaime Gomez Arjona, the chief of Valencia Group for the Study of the Juche Idea of Spain.

Recalling that HE Kim Jong Il published the work “Socialism Is A Science” 25 years ago at the time when the imperialists took the advantage of the collapse of socialism in East European countries to get more undisguised in their moves against socialism day by day, the writers praised the immortal ideological and theoretical feats of the peerlessly great man.

In his work, they highly praised, HE Kim Jong Il revealed that the crumble of socialism in various countries does not mean the failure of socialism as science but the bankruptcy of opportunism which has corrupted socialism, and proved that although socialism is temporarily experiencing a heart-rending setback because of opportunism, it will without fail be revived and win ultimate victory for its scientific accuracy and truth.

They noted that his words about the defence of "human rights" by the imperialists seem to having been written yesterday or a few days ago for how they are current, not 25 years ago.

Referring that HE Kim Jong Il stressed to build the socialist ruling party into the motherly party serving the people, they stressed that HE Kim Jong Il is the great teacher of the socialist revolution and construction and history vividly proves it is important to hold a prominent and distinguished leader.

They highly praised that the people in the DPRK can possibly build a powerful socialist country by their own and no force on earth can check the vigorous advance of the Korean-style socialism.

They stressed that the Workers' Party of Korea and the Korean people are vigorously advancing along the road chosen by themselves in the face of all hardships and difficulties under the leadership of HE Kim Jong Un and the most scientific Juche-oriented socialism will win victory after victory.
